**REDUCE ERRORS**  
**ALL ON YOUR COMPUTER**

ITxM<sup>SM</sup> Diagnostics utilizes Pathways for increased integration and outreach for its clients.

Pathways is an information channel and connectivity system for hospital reference laboratories and lab networks doing outreach. It enables web-based access for client order entry and result delivery.

# RESULTS WITHOUT WAITING FOR MAIL.

*Welcome to Pathways.*

## THE PATHWAYS ADVANTAGE

- Accessibility through any internet connection
- Provides the opportunity to interface with most existing laboratory information systems
- Uses electronic order entry and results delivery:
  - significantly reduces errors
  - saves time and improves efficiency
- Provides flexibility while also maintaining HIPAA compliance
- Customizable result delivery
- User-friendly

To find out more about Pathways and its options, please contact Sherri Kopko, Director of Diagnostics Operations at [skopko@itxm.org](mailto:skopko@itxm.org) or 412-209-7377.
